SPN College of Nursing aims at bringing the best of International Standards and modern professional techniques in patient care, to India.

Based on the firm belief that nursing is not just a profession, but a vocation, the faculty of nursing believes in a holistic and patient centric approach to nursing. It is supported by the theories and practices of modern medicine. We seek to develop nursing professionals taking patient care to levels beyond the confines of mere duty and unite knowledge and skill with genuine compassion and concern for the patient's well being.
